

EAST WEST MODEL SCHOOL

TALIT, PURBA BARDHAMAN

PIN-713141

NOTICE

DATE: 09-03-2026

In order to ensure more effective teaching-learning, the Managing committee of East West Model School has resolved that the syllabus be modularised before being taught in the class. For this purpose, teachers are requested to draft detailed lesson plan taking into account the available time, the learning outcome, the weightage that a particular topic deserves, mode of assessment of the section taught, student interaction and revision etc. 15 to 20% of the total number of classes available in the session may be earmarked for co-curricular and extra-curricular activities, revision, student interaction and externalities like leave etc. Modules to be followed in teaching for the period April- May are to be finalized and submitted positively before the commencement of classes for the academic session 2026-27. Modularisation of the remaining part may be completed within the summer vacation and submitted thereafter. The following format may be used for the purpose of modularisation:

Name of topic/ chapter/ Components	Learning outcome in focus	Modules in detail (inclusive of Revision/ Interaction Planning) and no. of classes required	Number of classes (Required for Teaching)

The modules are to be strictly followed in day to day teaching and entered into the log book after instruction. The school intends to upload the structured modules on the website. Therefore, the task of modularisation is to be accomplished with utmost care.
